

TeamView® Mobile Status

TeamView® Calendar LookUp

TeamView® Calendar Lookup reads the calendar data from the company mail server for TeamView® applikationernes support-database. Data is output in predefined intervals, and only applies to employees who have been given the right to do so

The graphical presentation of today's agreements respect the agreement types (colors) offered in Exchange / Notes (the following from the Exchange).

-  Temporary appointment
-  internal meeting
-  Outside the house
