Enhanced Presence Information for Mobile Employees

Unified Communications concept conceals the fact that modern technologies make it possible to create optimal interactions across all media and services employees use when communicating with colleagues, customers and partners.

TeamView[®] Mobile Status for Lync/Skype for Business is an important piece on this interaction integrating mobile phone status from Mobile Carriers^{*} with Microsoft Lync/Skype for Business. With this functionality, employees using Microsoft Office Communicator will immediately see if a colleague is available or not on the mobile phone.

* TDC, Telia, Telenor, Unitel, HI3G & Cirque

Benefits

- Mobile status information in addition to Deskphone
- Simple installation
- Runs as a Windows Service
